A NOTE FROM THE CONVENOR

SASHANK GANAPATHIRAJU

To the Finalists, their Families, Volunteers, and the NorthSouth Community,

It is my honor to welcome you to the great state of North Carolina! You have all worked incredibly hard to get to this point. **Finalists:** your work ethic needs no adjectives. Your commitment to pursuing your subjects of choice, even over a summer break in which you could be relaxing without a worry in the world, is commendable. **Families:** investing time and resources to give your kids the opportunity to excel is *exactly* the type of support system they need. **Volunteers:** the Foundation would literally cease to exist if you weren't here.

In our fast-paced, modern environment, it is incredibly easy to get swept up in the current of the forward-looking world and lose sight of where we began. When deliberating over what image to place here, I realized I wanted this note to serve as a visual reminder that there is a profound, irreplaceable value in staying grounded to one's roots – no matter what those unique roots may be or where they are from. Embracing one's heritage isn't about living in the past; rather, it is about anchoring oneself in firm values, so that we have the stability and strength to reach our goals. So, I chose this (pretty cool, if I say so myself) picture of me playing the mridangam as a part of my college Indian classical music group, taken this year.

As we dive into an intense weekend of competition, it is natural to focus entirely on the upcoming results. In the midst of that excitement and nervous energy, I want to leave you with a word of advice from an old piece of wisdom: one that I lived by during my 12 years as a NorthSouth competitor.

"We must seek the strength to change what we can, seek the ability to accept what we cannot change, and seek the wisdom to know the difference between the two."

Over the next few days, pencils will write, buzzers will beep, and scores will be tallied. You are being judged, and that's OK. You have the strength to change how much focus, passion, and heart you bring to the stage – control that with everything you have. But the moment the pencil goes down or the final oral round ends, let it go. Find peace in knowing you did your best, and carry this with you: a single rank does not – and never will – define your boundless potential. This wisdom is a guidepost not just for a competition weekend, but for a lifetime of future challenging endeavors.

Lastly, an event of this magnitude requires a village of dedicated minds and massive hearts. My deepest gratitude goes out to the NorthSouth Board, the Leadership Team, and my amazing Raleigh Finals team for their unwavering trust, guidance, and support. I would also like to extend a warm thank you to Meredith College for opening their doors and serving as our gracious host venue for these National Finals.

To the youngest competitors: those butterflies in your stomach? Every single person here has those. Even the volunteers. Even your parents. Even me. You'll get used to it.

To every contestant: breathe, trust your preparation, and remember who you are.

Now, let's get this show on the road.

Dear Friends,

Welcome to North Carolina for the 2026 NorthSouth Foundation National Finals. Being invited to compete in the national finals is a well-deserved honor, and you should be proud of the hard work and dedication you have demonstrated in preparing for this competition. Susan and I wish you the very best of luck as you compete, and we encourage you to use the skills and experience you gain through this competition as you strive to achieve your goals in the future.

I would also like to extend my sincere appreciation to the staff and volunteers who made this competition possible. I am grateful for your dedication to providing this opportunity for the next generation of leaders.

I hope everyone has a wonderful weekend and enjoys their time in our great state.

Sincerely,

A handwritten signature in blue ink that reads "Thom Tillis".

Thom Tillis
U.S. Senator

July 31, 2026

Dear Finalists and Families,

It is my great pleasure to welcome you to Raleigh and to Meredith College for this year's NorthSouth Foundation National Finals. My heartfelt congratulations go out to each of you. Your selection from a pool of more than 8,000 regional participants is an extraordinary accomplishment, and you should be exceptionally proud of all you have achieved.

To our young contestants, I extend my warmest wishes. I hope you and your families enjoy the finals, the activities, and the many wonderful programs arranged for this special gathering. This national event offers a remarkable opportunity to create lasting memories. I encourage you to savor each moment, form meaningful connections, and leave a positive impact on this event and on those you meet along the way.

I hope that all of you and your families enjoy your time in Raleigh and can take a moment to explore our greenways, restaurants, and museums. On behalf of the City of Raleigh, welcome, and best of luck! May this experience be enriching, memorable, and inspiring for you all.

Warm regards,

Janet Cowell
Mayor of Raleigh

July 31, 2026

Dear NorthSouth Foundation National Finals Participants and Families,

It is my pleasure to welcome you to the Triangle for the 2026 NorthSouth Foundation National Finals, hosted at Meredith College in Raleigh. This event brings together thousands of talented students from across the country, each demonstrating remarkable dedication, curiosity, and academic excellence.

Your commitment to learning and growth reflects the very best of what this region celebrates and supports.

For more than three decades, the NorthSouth Foundation has empowered students by expanding access to educational opportunities, fostering achievement, and nurturing future leaders. The Foundation's volunteers, families, and mentors play an essential role in uplifting young people and helping them reach their full potential. We are proud to host an organization whose mission aligns so closely with our community's values of inclusion, education, and service.

As you participate in this year's competitions, I encourage you to enjoy all that our area has to offer. The Town of Morrisville—recognized twice as an All-America City—is home to some of the region's best parks, greenways, and restaurants, and we would be delighted for you to visit during your stay. Our community thrives because of its diversity, its welcoming spirit, and its commitment to supporting families and young learners.

On a personal note, I know you will enjoy your time at Meredith College. When I lived in Raleigh a few decades ago, I lived right next to the campus, and it remains one of the most beautiful and inspiring places in the city.

To all participants, congratulations on reaching the National Finals. Your hard work has brought you here, and I have no doubt it will carry you far in the years ahead. To families and volunteers, thank you for the encouragement, guidance, and support you provide every day.

We are honored to welcome you to the Triangle. Please enjoy your time here and make the most of this extraordinary experience.

Sincerely,

TJ Cawley
Mayor of Morrisville

July 31, 2026

Dear Participants, Families, and Volunteers,

On behalf of the Cary Town Council, welcome to the Triangle for the 2026 NorthSouth Foundation National Finals. Congratulations to each student who has earned the opportunity to compete. Your dedication, curiosity, and hard work have brought you to this exciting milestone, and we celebrate your commitment to learning and academic excellence.

The NorthSouth Foundation has inspired generations of students to pursue knowledge and reach their full potential. Thank you to the parents, volunteers, and organizers whose support makes this exceptional event possible.

While you are here, I hope you have the opportunity to explore our vibrant region and enjoy all that it has to offer. Best wishes to all the competitors for a rewarding National Finals!

Sincerely,

Harold Weinbrecht
Mayor of Cary

Office of Honorable Mayor Jacques K. Gilbert
TOWN OF APEX

PO Box 250 | 73 Hunter Street
Apex, North Carolina 27502
919.249.1260

July 10, 2026

Dear Mr. Sashank Ganapathiraju,

On behalf of the Town of Apex, it is my pleasure to extend a warm welcome to the students, families, educators, volunteers, and supporters attending the 2026 NorthSouth Foundation National Finals, held at Meredith College in Raleigh from July 31 through August 2, 2026.

Congratulations to each student who has earned the opportunity to compete. Your hard work, dedication, perseverance, and commitment to academic excellence are commendable, and your achievements are a testament to the encouragement and support of your families, teachers, and mentors. We are grateful to the Raleigh Chapter of the NorthSouth Foundation and Meredith College for hosting this year's National Finals and welcoming participants from across the nation to the Triangle region. Events such as these celebrate learning, inspire future leaders, and provide students with opportunities to challenge themselves while building lasting friendships, broadening their perspectives, and creating lasting memories.

The Triangle region—including the City of Raleigh, the Town of Apex, and our neighboring communities—is proud to welcome you to North Carolina. While you are here, I encourage you to explore all that our region has to offer. If your travels bring you to Apex, you'll discover why we are known as the "Peak of Good Living." Our community is recognized for its welcoming small-town charm, vibrant downtown, outstanding parks and greenways, and strong sense of community. We would be delighted to welcome you and your family during your stay.

Best wishes to all participants for a rewarding and successful competition. May this experience inspire continued curiosity, lifelong learning, and new friendships. Safe travels, and welcome to North Carolina!

Very truly yours,

Jacques Gilbert
Mayor, Town of Apex

"There is nothing we can't accomplish when we work together." – Mayor Jacques K. Gilbert

MAN - MAKING: WHY A 130 - YEAR - OLD IDEA STILL BELONGS IN EVERY CHILD'S EDUCATION

DR. RATNAM CHITTURI, FOUNDER AND CHIEF MENTOR, NORTHSOUTH FOUNDATION

In September 1893, a young monk from India stood before the Parliament of Religions in Chicago and, in a few words, changed how the West saw his homeland. But the message Swami Vivekananda carried was not only for that room. Woven through his lectures in the years that followed was a single, recurring idea: the true purpose of education is not to fill the mind with facts, but to build the person. He called it “man-making.”

Vivekananda was blunt about the education system of his own time. He described a schooling that taught a child to distrust everything around him — his father, his grandfather, his teachers, even his own traditions — until, by sixteen, the child had become, in his words, “a mass of negation, lifeless and boneless.” He believed such an education, however full of information, was worse than no education at all, because it could not produce a single original thinker, only imitators.

His alternative was simple to state and hard to practice: education should be the training that brings the will under control and makes it fruitful. It should assimilate a few ideas so deeply that they become character, rather than pile up a library’s worth of facts left undigested. “If you have assimilated five ideas and made them your life and character,” he said, “you have got more education than any man who has got by heart a whole library.” The end and aim of all training, he insisted, is to make the man grow — not merely to polish the outside when there is no inside.

Is Man-Making Still Relevant, 130 Years Later?

It is worth asking, plainly: does a nineteenth-century monk’s idea about character have anything to say to a child preparing for a spelling bee or a math Olympiad in 2026?

I would argue it has more to say now than ever. We live in an age of nearly unlimited information — a child today can reach more facts on a phone than Vivekananda’s entire negative-education system could stuff into a lifetime. Information is no longer the scarce resource; character is. The child who can memorize a thousand words but cannot sit through failure, who can solve for x but folds at the first sign of criticism, who has been handed every answer but never learned to ask a hard question of himself — that is exactly the “mass of negation” Vivekananda warned against, dressed in modern clothes.

Man-making, translated for today, is not a lecture on old philosophy. It is a set of habits, practiced daily:

- Self-discipline — showing up to practice on the days you don’t feel like it
- Self-initiative — starting the extra chapter no one assigned
- Self-reliance — working through the problem before asking for the answer
- Self-evaluation and self-reflection — knowing honestly where you stand, and why
- Selfless service — giving time to someone who needed it more than you did
- Self-learning — chasing the question the syllabus never asked

These are not add-ons to education. Vivekananda would say they are education. A trophy earned without these habits teaches a child to depend on the trophy. A trophy earned through these habits teaches a child to depend on himself — and that is the difference between an ordinary result and an extraordinary person.

From Man-Making to Standing for What Is Right

Character-making has a second half that Vivekananda also insisted on: the courage to act rightly, even against convention. This is not a separate thread in history — it is one continuous line. America's founders staked their lives on the belief that life, liberty, and the pursuit of happiness were worth the risk. Henry David Thoreau, protesting an unjust war, refused to pay a tax and gave the world Civil Disobedience. Gandhi picked up Thoreau's idea half a world away and turned it into a tool that helped free a subcontinent. Martin Luther King Jr. studied Gandhi's method and used it to bend America toward its own promises. Nelson Mandela walked the same path to end apartheid in South Africa. Each of these men was, at some point, an ordinary person who decided that character was not a private virtue but a public responsibility — that self-discipline and courage, practiced consistently, could move history.

That is the same message, at a smaller scale, every NorthSouth child is being asked to carry: practice the values, not just the material. Strive for what is right — in the way you compete, the way you treat a fellow competitor, the way you handle a wrong answer in front of a room — as a constant pursuit, not a one-time performance.

The NorthSouth Foundation Way

This is the quiet philosophy the NorthSouth Foundation has always stood for: that an ordinary child, given the right support and asked to hold themselves to the right standard, can become extraordinary. The Bee and Olympiad stages are the visible part. The invisible part — the one that matters thirty years from now — is the man-making: the discipline, the initiative, the self-reliance a child builds while preparing for that stage, whether or not they ever win it.

Vivekananda's speech was given more than 130 years ago, in a different country, to a different century. But "stand on your feet and be men" has not aged out of relevance — if anything, in a world eager to hand children every answer, it has become more urgent, not less.

As we close another National Finals, thank you to the volunteers who gave their evenings and weekends to make it possible, to the parents who drove the practice and believed in the process, and to every child who walked onto that stage.

Congratulations, and our very best wishes to every child who is competing at the 2026 National Finals — may you carry forward not just the memory of the competition, but the habits it built in you.

dear everyone,

we are so proud of
you all!

love <3,
bee book committee

#dreamteam

Dearest gentle readers, participants, and families,

Every year, the Finals bring together an extraordinary community of participants, families, volunteers, and supporters, each contributing their own story to the NorthSouth experience. While competitions may last only a few days, the friendships formed, lessons learned, and memories created continue long after the closing ceremony. This Bee Book is our attempt to capture those moments and preserve them for years to come.

As we gathered reflections, photographs, artwork, and stories from across the NorthSouth community, one theme appeared again and again: growth. Growth through perseverance, through curiosity, through teamwork, and through the courage to try something new. Behind every accomplishment is a journey filled with dedication, encouragement, and countless hours of hard work. We hope these pages celebrate not only the achievements you see on stage, but also the quieter moments that made them possible.

This Bee Book is more than a keepsake. It is a snapshot of a community united by a shared love of learning and service. Within these pages, you'll find stories that make you laugh, moments that inspire you, and memories that remind us why NorthSouth Foundation continues to bring together so many passionate individuals year after year.

Creating this edition has been a truly collaborative effort. From collecting submissions and interviewing participants to designing layouts and reviewing every page, our committee worked with one goal in mind: to create something that reflects the energy, spirit, and heart of the 2026 Finals. We are deeply grateful to every participant, volunteer, parent, and contributor who shared a piece of their journey with us. Without your stories, this Bee Book would simply be pages; with them, it becomes a celebration of our community.

Whether you're revisiting your favorite memories, finding yourself in a photograph, or reading about someone else's journey for the first time, we hope this Bee Book reminds you of everything that makes NorthSouth Foundation so special. May these pages serve as a lasting reminder of the friendships you've built, the challenges you've overcome, and the incredible community you are now a part of.

Thank you for allowing us to tell your stories. We hope you enjoy reliving the memories of the 2026 Finals as much as we enjoyed bringing them to life.

Warmest Wishes,

The Bee Book Committee

Sowndarya, Pravi, Vardhini, Anish, Anirudh, Anjali, Sashank

A Message from the Contest Chair

Congratulations, Finalists! Every word spelled, every equation solved, and every fact recalled on this stage represents hard work, perseverance, and a whole lot of support from your parents and family. Whatever the outcome, know this: you've already won by making it to the Finals.

National Finals participation offers a unique checkpoint along a much longer journey of learning. It pushes you past comfort zones, helps you face both success and challenges with grace, and lets you discover your passion. That pursuit of excellence — tested one word, one fact, and one contest at a time — is what builds confident, resilient learners for life.

None of this would be possible without our dedicated parents and volunteers. Their feedback has helped us host Solution Day sessions and develop the Contestant Feedback Form, refining our processes and responding to the needs of parents and contestants alike. We encourage every parent and volunteer to keep sharing your thoughts — together, we can continue building a stronger, more responsive community of learning for the next generation.

To every contestant, parent, coach, and volunteer who made this journey possible: thank you for your continued participation and trust in NorthSouth Foundation.

Finalists — participate with confidence, think sharply, respond boldly, make new friends, and enjoy every minute of it!

Krishnan Gowri, Ph.D.
NorthSouth Contest Chair

What have YOU learned from Being at NorthSouth?

Nitara mentioned that NorthSouth has been instrumental in helping her maintain focus and discipline.

Laasya mentioned that she has recognized the significance of community impact.

Tejasvi expressed, "Competing at the NorthSouth Foundation has instilled in me the importance of hard work, preparation, and consistency."

How To Stay Motivated

Lacking motivation?
Here are some ways that NorthSouth competitors stay motivated!

Ashwika: "Take a break and do something you like."

Laasya: "Come back to work later."

Anay: "Go do something you like, like read a book."

Tejasvi: "Take small steps and remind myself of your goals."

Some Contestants are Inspired by:

- Curiosity!
- Expanding knowledge
- Watching their siblings, parents, and peers work hard!
- Working hard to build a career in a field they are passionate about!

- Intellectual stimulation
- Gaining experience!
- Contributing to NorthSouth's mission of empowering youth and education!
- Motivated by the challenging learning curve
- Wanting to see improvement!
- Challenges!
- Contribute to the NorthSouth legacy!
- WIN!!

What Does Being at NorthSouth Mean to You?

Volunteering means giving back to the community that supported me all this time. I want to give back and make others' experiences as good as mine.

– Shrey Parikh, Volunteer

I've learned the importance of community service: by being a coach in charge of the success of the students whom I work with, it's been rewarding to see first-hand how students grow overtime, an experience that's reinforced my desire to contribute to my community.

– Shankar Harikrishnan, Volunteer

NorthSouth is a wonderful cause, and volunteering with it makes me feel like I am making a positive difference in society. I enjoy helping others and being part of an organization that gives back to the community.

– Krishang Thiyagarajan, Grade 6

To me, volunteering with NorthSouth means helping curious students. I choose to dedicate time to the Foundation because of my will to help my community.

– Nivriti Kadari, Grade 9

I keep participating in NorthSouth because I enjoy seeing the tangible impact that my coaching has on students' understanding of the material and their confidence. If every workshop, every subject, and every session we host makes a student 1% more interested, 1% more confident, or 1% more prepared for the future, then that's my definition of success.

– Shankar Harikrishnan, Volunteer

How NorthSouth Impacted My Life

I have been involved with NorthSouth Foundation for more than half a decade, first as a competitor and now as a volunteer and member of the National Team. Although I initially joined because my parents signed me up for competitions, volunteering quickly became much more than simply helping at events. It became an opportunity to give back to a community that has given me so much.

I started competing in NorthSouth in 2020 with my brother, which was truly unfortunate considering the circumstances of that year. However, I still felt a connection to the organization, and was inspired to start volunteering. Initially, I started in the coaching program, teaching in math before branching out to the Computer Science and Learning Journey classes. I fell in love with teaching through NorthSouth. Being able to experience the moment that a student understood a concept is a feeling that cannot be replicated anywhere.

My first in-person volunteering experience had a lot more of a unique start. My family arrived nearly an hour early to our first ever Raleigh Chapter competition because we mixed up the timings, and we ran into a few people taking stuff out of their car. I offered to help the chapter lead unload supplies and prepare the venue. Little did I know that this simple act would change my world. Throughout the weekend, I continued helping wherever I was needed, and I continued to make connections.

Conversations with more of the volunteers introduced me to the larger mission of NorthSouth Foundation. I learned that every competition and most of the money that comes from the Learning Journey and other coaching helps raise funds for scholarships that allow underprivileged children in India to pursue an education. Though I was born in the United States, I have always felt a deep connection to my Indian heritage, and their mission resonated with me. Every hour I volunteered contributed to opportunities that could change the lives of those less fortunate.

I also appreciate NorthSouth because I understand the organization from a wide range of perspectives. As a competitor, I know how exciting and sometimes stressful competition day can be, especially for parents. As a volunteer, I have learned what it takes behind the scenes to create an organized, welcoming experience for every student and family. That perspective pours fuel on my fire to help people by allowing me to make sure each participant feels encouraged and supported, every parent gets the worry-free environment that they need, and every volunteer feels valued and supported.

The reason I've returned year upon year is a combination of two things. Firstly, every event reminds me that volunteering is about creating opportunities for others. Whether I am setting up contest rooms, solving last-minute problems, or mentoring younger volunteers, I know my work helps make the competition successful while supporting a much larger mission. Secondly, I love to see the smile on every kid, the excitement and nervousness etched on their faces, the energy that's flowing around in the air.

That feeling isn't something words can describe effectively, and it's something I want to experience every day.

I realized my love of helping people through NorthSouth, and through this competition, I've been able to make such a big impact on students, parents, and my community, and see it within them. NorthSouth has shown me that leadership is about serving others and making a meaningful impact. Over the years, that commitment has allowed me to take on greater responsibilities.

Before Regionals, the NorthSouth Chapter Director from Raleigh, North Carolina reached out to invite me to the National Finals Team. I became the youngest member of the group, but I had a lot of fun making this event the most successful it could be.

Before I joined, I thought that this was just another competition that my parents desired me to join. However, I learned how this is so much more than just that. NorthSouth has given me a community, a purpose, and a chance to make a difference. I have seen kids personally grow up in front of my eyes through NorthSouth.

That is why I will continue dedicating my time to its mission for years to come.

Anish Palwai

Skills Development Workshop hosted by NorthSouth

January 3rd and January 4th, 2026

Hosted at Chiguru Children's Village in Vijayawada

Skills such as:

- Resume Building
- Group Discussion Insights
- Interview Techniques
- Workplace Etiquette
- Life after Employment

Taught to every student who attended, giving them necessities to succeed in a career and beyond.

Read these Testimonials!

The interactive activities, group tasks, and real-world simulations made learning engaging and helped boost my confidence, communication skills, and decision-making abilities

-Bhavya Sri Myla

The program stood out for its interactive, two-way learning approach, making the sessions practical and engaging. Interacting with seniors and learning from their experiences added significant value

-Prasanth Kumar Bollinedi

This program has added great value to my learning journey and encouraged me to continuously work on my skills for future opportunities.

- Moulika Gurram

The program fostered an interactive learning environment that encouraged collaboration, peer interaction, and open communication, enabling us to connect with one another and build meaningful professional relationships

- Vasavi Kolla

This session gave me real clarity on what it takes to move from College to corporate.

We learned practical skills like resume preparation, how to perform confidently in GDs, and how to face mock interviews.

Each session felt relevant, realistic, and motivating

- Sai Aakash Koppuravuri

This program has been a valuable step in my professional and personal growth. Grateful for the opportunity to learn, reflect, and grow alongside such motivated peers. Looking forward to applying these in the journey ahead.

- Alekhya Mannam

This experience truly helped me bridge the gap between college and corporate life. I gained valuable insights into resume building, group discussions, interview skills, workplace etiquette, and professional communication. The mock interview was a major confidence booster and pushed me to step out of my comfort zone, improve my social skills, and express myself better

- Sudarshini Valimireddy

“Your word is...”

Ananya Prassanna

Every speller knows those three words can make your heart race. Years of studying and practicing, hundreds upon hundreds of hours, all come down to those few golden seconds. One word can send you to the next round. And if you get that word wrong, you could end the season early. The hardest part was not the bell. It was facing everyone who had believed that you would make it. What do you tell your friends, your parents, and the family that came so far to see you succeed? Those golden seconds start to feel bitter, especially when it's your last year, and you gave it your all. In spelling, messing up is always one word, one letter, one bell, and it's over. There is no second round, no next inning, and no teammate to help you recover. Over time, mistakes stop feeling like chances to grow and start feeling like we aren't good enough.

The longer I competed, the more I realized I wasn't just studying words anymore. I was defending my identity as the spelling bee kid. I began to feel that winning every competition was something I needed to do because my identity depended on it.

Winning didn't always make me happier; it motivated me to study harder for the next competition. The joy that had drawn me to spelling now slowly gave way to perseverance and keeping what I had already achieved.

People outside the spelling community rarely understand this. They see children spelling complex words on a stage, not the hundreds of hours spent studying etymology, word lists, and language patterns in pursuit of a single competition. They don't see evenings spent alone studying words or the guilt of taking a day off because of the bee. When someone says, "It's just a spelling bee," they don't realize that to competitors, the spelling journey represents years of sacrifice condensed into microphone moments. Every correct spelling slowly raises the bar. Every mistake feels catastrophic. Success starts to replace curiosity with expectation and passion with perfectionism.

“ Y o u r w o r d i s . . . ”

Even with all that pressure, the spelling bee also gave me something extraordinary. It gave me the chance to meet other people who understood those feelings without explanation. My biggest competitors became some of my closest friends for life. While competing, you can find yourself surrounded by others who want to succeed but also want you to succeed as well. This isn't about spelling a single word. It is all about the work each speller puts in. It's about how years of chasing a single word can change how we think of ourselves. The greatest lesson spelling taught me was not about language; being a speller is all about resilience. One mistake or a wrong letter could end a speller's journey, but it could never define all the work behind it or the person they have become because of spelling.

10 THINGS I'D SAY TO SOMEONE COMPETING NOW:

Shrey Parikh

2026 Scripps National Spelling Bee Champion

1st NorthSouth Spelling 2024, Top-10 NorthSouth Vocab 2025, 5th NorthSouth Spelling 2023

1. Action is the most important step to progress. Without getting the ball rolling, it is impossible to improve at something. Do first, think later.

2. Being nervous is OK. Stress means you care. Just use it to fuel you to perform better.

3. Aim for consistency. Doing 2 hours a day for 4 days is better than doing 8 hours one day and nothing for the rest of the week. When you keep it consistent, you will steadily get more done.

4. Win or lose, think of this as practice. At the end of the day, the trophy doesn't really matter. The knowledge and experiences you gain are what make competition so amazing.

5. Your competitors are your community. View your competitors as peers, not obstacles. These like-minded people are the ones that will stick with you.

8. Balance your brain. Don't get too obsessed with one thing as this can lead to burnout. Do something fun like playing a sport to destress.

6. Be creative. Everyone is different. Tweak what others have done and study in a way that suits you.

7. Develop a technique that helps you build confidence. Confidence is key. Without it, doubt can creep in and cause you to not think straight.

9. Remember the journey, not the destination. The true beauty of these contests really happens during the part no one sees: preparation. Step back and admire how much work you have put in and what you have built with your studying.

10. Have fun! Don't get too wound up. No matter what competition, remember it is all in the name of fun, practice, and improvement.

Learning Journey: Shaping the Future of Education

NARAYANA JANGA, CHIEF COACHING OFFICER

Since its inception, the NorthSouth Foundation has been a beacon of academic excellence and community enrichment. At the heart of our mission is the Learning Journey Program, a specialized supplemental program designed to empower K-12 students with the foundational academic skills, critical thinking, and confidence they need to succeed in school and in life. As we look toward the future, our Learning Journey continues to evolve, blending cutting-edge educational subjects with advanced, custom-built technologies to streamline classroom experiences.

Expanding Our Horizons: New & Core Offerings

Our curriculum is constantly expanding to meet the demands of a rapidly changing academic landscape. This year, we are proud to showcase advanced pathways across several core disciplines:

- English Language Arts (ELA): From foundational Spelling Bee techniques and advanced Vocabulary development using classical etymology, to high-level Creative Writing and Persuasive Essay Writing.
- STEM & Mathematics: Complete pathways for competitive success, including MathCounts, AMC 8, and MOEMS prep, as well as general school-readiness crash courses.
- Scientific Frontiers: Immersive courses mapping Earth and Space Sciences, integrated physical/biological sciences, and specialized tracks like Introduction to Neuroscience (BrainFacts) and Science Olympiad prep.
- Geography Bee: Comprehensive explorations of global geopolitics, physical topography, and cultural landscapes.

Flexible Delivery Models

We understand that every child learns differently. To accommodate diverse schedules and learning styles, our courses are delivered through:

1. Coach-Led Live Sessions: Immersive, highly interactive classes led by dedicated subject-matter experts and mentors.
2. Trimester-Based Concept Acquisition: Structured 14-week concept packages that systematically build academic stamina and deep-dive subject familiarity.

Tech Behind the Scenes: Empowering the Classroom

To support hundreds of virtual classes, thousands of students, and our invaluable army of volunteer educators, we are actively designing and deploying tailored automation tools. Our goal is to minimize administrative friction so that teachers can focus purely on teaching, and students on learning.

Intelligent Monitoring Scripts (Live)

To maintain the highest standard of class quality, our backend development team built **Daily Learning Journey Operational Summary** scripts. These automated workspace systems run every morning to:

- Audit classroom schedules and ensure Zoom/Meet links are perfectly synchronized.
- Compile automatic, daily teacher-led reports.
- Flag delayed homework submissions or student access issues instantly, allowing administrative volunteers to coordinate quick, proactive outreach to parents.

On the Horizon: ClassAdminBot (Coming Soon!)

We are also hard at work developing the ClassAdminBot, an upcoming, intuitive chatbot assistant designed to revolutionize classroom support. While it is still in the early stages of development and preparing for its upcoming alpha testing, we are designing it to eventually handle instantaneous classroom support. Once live, it will help students and parents retrieve class recordings, manage access requests, and answer curriculum questions so that technical roadblocks never interrupt a student's learning.

Learning Journey: Shaping the Future of Education

Our Heartbeat: The Community of Learners & Leaders

The magic of the NorthSouth Learning Journey doesn't come from the technology or the textbooks – it comes from the remarkable people who bring this community to life. Whether you are a student taking your first step or a volunteer dedicating your time, you are the heartbeat of this program.

To Our Inspiring Students: Discover What You Can Achieve

To all the brilliant minds embarking on a NorthSouth Learning Journey:

"Preparation is the bridge between a dream and an achievement."

Every class you attend, every challenging math problem you solve, every essay you draft, and every spelling word you master is building a stronger, more capable version of you. Our programs are not just designed to help you win trophies; they are designed to help you discover what you are truly capable of. Keep asking questions, never be afraid to make mistakes, and enjoy every step of your unique learning journey!

To Our Passionate Volunteers: Shape the Future With Us

Behind every virtual classroom, automated script, and lesson plan is a dedicated, passionate community of volunteers—from the educators who teach, to the coordinators who manage the administrative tracks, to the developers building our backend tools.

If you have a passion for education, technology, or community service, we invite you to join our family:

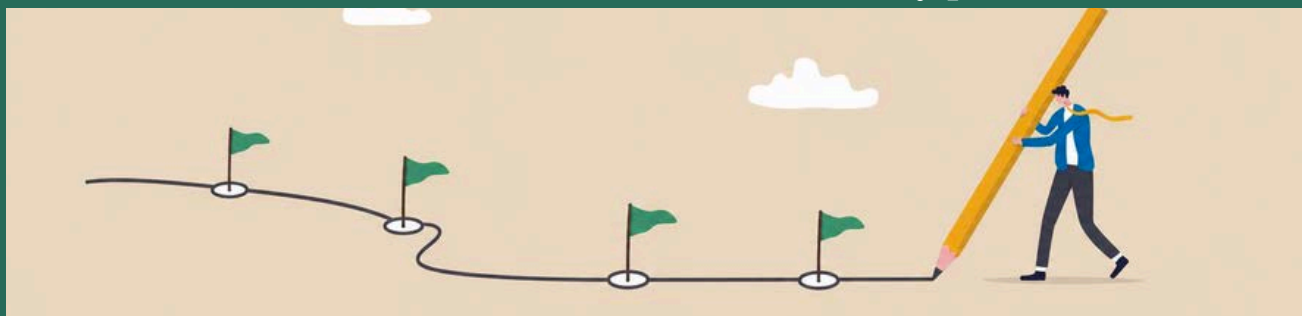

- For Aspiring Educators & Mentors: Share your knowledge and ignite a lifelong passion in a student. Your guidance will shape the next generation of leaders.
- For Organizers & Administrators: Help us keep our programs running smoothly. Your coordination ensures every child has a seamless learning experience.
- For Tech Enthusiasts & Developers: Join our tech team! Help us refine our monitoring scripts, build out the upcoming ClassAdminBot, and design the digital infrastructure that powers thousands of online classes.

"Volunteering is the ultimate exercise in democracy. You vote every day about the kind of community you want to live in."

By giving your time to NorthSouth, you aren't just teaching a class or running a script – you are actively investing in a supportive, accessible, and high-achieving ecosystem where every child has the chance to soar.

Whether you are here to learn, to teach, or to build, there is a place for you in our global family. Let's make the next learning journey possible, together!

To register for upcoming classes or to sign up as a volunteer, visit our official NorthSouth Learning Journey page.

A Letter To My Younger Self

Hirsh Sandesara

Dear Younger Me,

Right now, you think the entire world hinges on the next round, the next spelling list, or the next math problem. It doesn't, but the habits you are building right now will shape the rest of your life. Here is what I need you to understand:

You are not your score. Your self-worth is entirely separate from your performance on any given competition day.

Failing publicly is a superpower. It hurts at the time, but it completely removes the fear of taking risks later in life.

Isolate your weaknesses. Don't waste time practicing what you are already good at because it feels comfortable. Attack the gaps in your knowledge first.

Lift as you climb. If you have mastered a concept, explain it to a peer who is struggling. Teaching others is the ultimate proof of your own mastery. When your competitive days are over, don't just walk away. Come back as a volunteer, a judge, or a mentor. This only works if we help the next generation.

Don't compare your behind-the-scenes to everyone else's highlight reel. Everyone is struggling with the material; they just hide it better.

Intellectual humility is mandatory. The moment you think you know everything is the exact moment someone else outworks you.

Rest is a weapon. Burnout is real, even at your age. Pulling an all-night study session right before a finals round yields diminishing returns. Trust your preparation and sleep.

Learn to lose with grace. True sportsmanship is revealed in how you carry yourself when things don't go your way.

Thank your parents. You aren't the only one sacrificing your weekends, driving long hours, and feeling the stress. Acknowledge the team behind you.

Enjoy the ride. It feels intense right now, but one day you will look back on these intense, hyper-focused weekends with incredible fondness. Have some fun with it!

Sincerely,
Older Me

Community Engagement: Building Year-Round Connection at the Chapter Level

Manish Sarda, Chief Operations Officer, NorthSouth Foundation

NorthSouth Foundation's National Operations team has been rebranded as Community Engagement, a change that reflects far more than a new name. It marks a deliberate realignment of our charter toward sustained, year-round engagement with our community at the chapter level, rather than an approach centered primarily around key events on the calendar.

Community Engagement is built on five functional pillars: Contests, Coaching/Workshops, Support, Growth, and Events. Together, these pillars form a comprehensive framework for how NorthSouth Foundation shows up for its members throughout the year. Regional contests give students a platform to showcase their skills; coaching and workshops provide mentorship and skill-building support; parent and student sessions keep families informed and involved; growth initiatives expand our reach into new communities; and community outreach, including participation in cultural events, keeps NorthSouth Foundation visibly connected to the broader community it serves.

Today, this work spans 74 chapters across 31 states, serving more than 7,700 registrations for regional contests. Managing a community of this scale requires thoughtful structure. Chapters are organized into five divisions, grouped by registration volume and geographic proximity, allowing leadership to coordinate effectively while staying responsive to local needs. In parallel, chapters are being strengthened by adopting an organizational structure that mirrors the national team's own design, ensuring programs are executed consistently and best practices flow smoothly between the national level and individual chapters.

At the heart of this structure is also a two-way relationship. Chapters do not simply deliver programs to the community; they serve as a vital feedback loop, surfacing the evolving expectations and needs of families and students back to national leadership. This continuous exchange keeps Community Engagement's programs grounded in what local communities actually need, rather than a one-size-fits-all model, and allows the organization to adapt as those needs change over time.

None of this would be possible without the people who power it. More than 175 volunteer leaders form the backbone of Community Engagement, serving as Divisional Directors, Associate Divisional Directors, Chapter Directors, and Associate Chapter Directors. These volunteers dedicate their time and expertise to organizing contests, running workshops, supporting families, and representing NorthSouth Foundation in their local communities. What unites them is a shared passion for educational excellence for children; volunteering with NorthSouth Foundation is, at its core, an expression of belief in the power of education to shape young lives, and a commitment to giving every child the opportunity to excel.

As Community Engagement continues to mature, the focus remains clear: strengthen connections with our community year-round, empower chapters with the structure and support they need to thrive, and ensure that every student and family who engages with NorthSouth Foundation feels the impact of a truly community-driven organization.

OUR SEVA TESTIMONIALS

As a volunteer, it was a truly meaningful experience. I got the opportunity to observe how doctors and healthcare professionals serve patients with care and dedication. The camp was well organized, and I learned a lot about different departments and basic medical awareness. It motivated me to contribute more to social service in the future. I feel grateful for being part of this initiative.

- Nikitha

Today, I had the opportunity to volunteer at a medical camp. My responsibilities included guiding patients and assisting doctors. Through this experience, I gained a better understanding of the patience, dedication, and responsibility required in the medical profession. Interacting with patients helped me develop empathy and improve my communication skills. Working alongside doctors allowed me to observe how they manage patients calmly and efficiently. I look forward to participating in similar service activities in the future.

- Vaidhika

Volunteering at the medical camp was a real eye-opener for me. In just six hours, I realized how tough everyday life is for hospital staff. Even when they are completely exhausted and tired, they never show it. Instead, they handle every situation and every patient with incredible patience. They listen calmly and work hard to solve problems. Seeing their deep dedication taught me a valuable lesson. Thank you for this wonderful opportunity.

-Bennuri Aishwariya

OUR SEVA TESTIMONIALS

Today, I volunteered at a free medical camp, and it was truly meaningful. I helped manage patients, guided them to appropriate sections, and supported the medical team with various tasks. Watching the doctors and healthcare staff work tirelessly to help others inspired me greatly. The experience taught me the importance of service, teamwork, and compassion. I felt happy and fulfilled knowing I contributed to helping people in need.

- KODIPEKA AKHILA

Thank you NorthSouth Team and We for Women Team for this volunteering opportunity. It was my first time attending a medical camp. Even though I come from an engineering background, I gained valuable experience by interacting with doctors and people from different age groups. Working with the Nutritionist and Psychiatrist, I learned about medical devices and how to interact with different kinds of people. This experience improved my communication skills significantly.

- NYALAKONDA SWETHA

I participated in my first NorthSouth activity as a volunteer. It was wonderful to see doctors who chose to treat people of Nallagutta on Sunday, selecting their family as second priority. The doctors showed immense interest and patience in treating everyone. The volunteers carried the program on their shoulders from entrance, enrollment, assisting, checking, guiding, helping the elderly, until pharmacy. Together we made the Free Medical Camp program a grand success! Thank you NorthSouth and We for Women for this initiative.

- PRAVEEN

OUR SEVA TESTIMONIALS

Today's volunteering at the camp was an amazing experience. I learned new matters regarding mental and physical health and hospital staff operations. The experience of serving needy people was truly fulfilling. The hospital staff was very calm and politely explained everything to the patients. Thank you so much for giving me this golden opportunity to be part of such meaningful work.

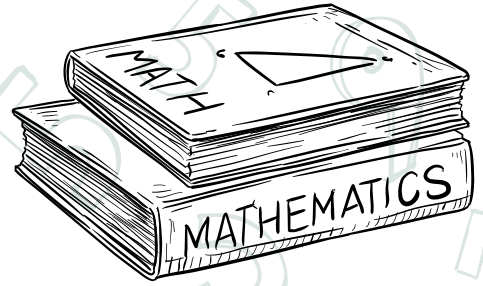

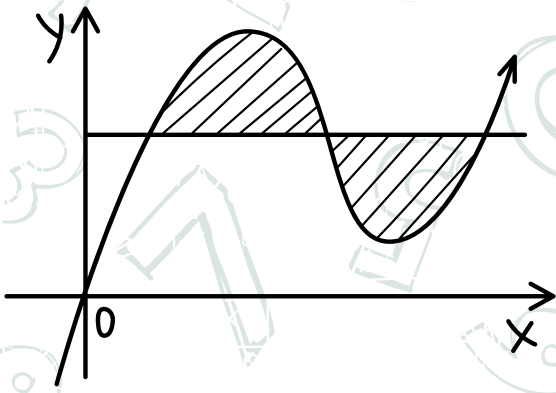

- Revathi Katle

It is a very good experience and a pleasure to be part of this camp. Through this camp, I came to understand how patience is very important in our lives. This is a very good way to improve networking and gain valuable insights into healthcare and community service.

- Navya

Our Mentorship Program

Testimonials

The mentorship program organized by NorthSouth in coordination with Adobe was very useful and informative. The mentors were friendly, easy to communicate with, and always ready to clarify our doubts. Their valuable experiences and practical insights helped us understand industry expectations, and their career advice gave us a clearer path for our future goals.

-Nithin Chowdary

I really liked being part of the NorthSouth Scholarship Mentorship Program. My mentor, Rajalakshmi, guided me very well — especially in backend development and placement preparation. She explained concepts in a simple, clear way, which made it easier to improve my skills, and her support helped me gain more confidence for interviews.

-Kotikalapudi Satya Rama Pallavi

Thank you for the mentorship program. Our mentors genuinely care about us and always guide us with complete honesty. Their real experiences and straightforward advice are helping us understand what to prepare for and how to face it.

- Chiguruseti Iswarya

From the very first session, talking with my mentor felt interesting. In the second session, he gave me a route map that helped me start my DSA journey. Every conversation with my mentor is also improving my communication skills and spoken English. I feel happy after every session.

- Manne Mouli Karthik

The sessions are informative and helping me grow my skills. Every discussion gives me actionable insights, the guidance is practical and clear, and the mentors are truly supportive.

Grateful for the mentorship!

- Kitte Swathi

Thank you for conducting such an amazing mentorship program. In my first session, my mentor, Gopi Sir, discussed a structured 3-month plan and guided me on the important topics and skills I should focus on to become industry-ready.

The session gave me a clear roadmap for my learning journey, and I look forward to the upcoming sessions.

- Puredla Sridevi

Our Mentorship Program Testimonials

The Mentor–Mentee Program has been a valuable learning experience. I gained useful insights into career planning, industry expectations, skill development, and placement preparation. My mentor shared practical knowledge from her professional experience. The sessions were interactive, informative, and motivating — they encouraged me to think clearly about my goals and the steps required to achieve them.

-Kurapati N N M H Sasank

My mentor explained communication skills and technical learning in a clear, practical way. The guidance on building confidence and how to start learning new technologies was easy to understand, and the assignments helped me practice what was discussed. Overall, the sessions are truly benefiting my personal and technical growth.

-Karri Usha Sri

My mentor, Mr. Arkaprava Ghosh, provided practical guidance on DSA, placements, networking, communication, and industry expectations. His insights and feedback helped me gain better clarity about my career goals and preparation strategy. I sincerely thank Arkaprava Sir, NorthSouth Foundation, and Vidya Shakti Foundation for this wonderful mentorship opportunity.

-Jubburu Prudhvi Raju

In the one-on-one mentorship, my mentor helped me identify my strengths and weaknesses and gave valuable insights on how to overcome them. He listens patiently and gives personalized suggestions rather than generic advice. Thanks to the VEDIC Foundation and NorthSouth Foundation for connecting me with a highly experienced mentor from Adobe, USA.

- Sri Vatchava

The mentorship session was an excellent learning experience. Interacting with industry experts gave me insights into real-world professional practices, helped me understand corporate expectations, and bridged the gap between academic learning and industry requirements. My heartfelt gratitude to NorthSouth for making this enriching experience possible.

- Saniya Kousar

This program is highly beneficial for students seeking real-world industry exposure and career guidance. The weekly one-on-one sessions offer a personalized learning experience with experienced professionals — covering career paths, technical skills, industry trends, internships, and workplace expectations. It builds confidence, improves communication, and helps us make informed career decisions.

- Satwika Kalwakuntla

These sessions have made me much more confident. My mentor is shaping me in all directions — not just education. This mentorship has been a turning point: it completely shifted my perspective from just studying to truly growing, both as a professional and an individual. I feel grateful to have a guide who genuinely invests in my future.

- Kukkadapu Sri Satya Narasimha Surya Srikar

The programme balanced technical and professional development. Weekly sessions improved my understanding of project development, AI productivity tools, and DSA. I especially appreciated the focus on soft skills — the weekly presentation activities enhanced my communication, public speaking, and confidence. The project guidance was practical and hands-on.

-Sadhu Venkata Prasanna

Our Mentorship Program Testimonials

The mentorship program has been a really good experience. My mentor is humble, approachable, and takes time to listen to every question patiently. The discussions have been insightful — especially on industry expectations, projects, and placement preparation. It feels great to have someone who shares real industry perspectives and gives personalized guidance.

-Isha Agarwal

When I first heard about the Mentor–Mentee Program, I thought it wouldn't make much difference. But meeting my mentor regularly, completing tasks, and sharing experiences has been wonderful. For first-generation graduates like me, with no one to guide us about careers and opportunities, this program is invaluable.

My mentor, Amrita Ma'am, is friendly and always listens — her guidance has given me real clarity and confidence.

-Kona Nandini

Thank you to NorthSouth for making this Mentorship Program possible. My mentor provided valuable guidance on upcoming placements, the skills I should focus on, preparation strategies, and career opportunities. The sessions helped me gain clarity and confidence about my placement preparation. I sincerely appreciate the efforts of the NorthSouth team, my mentor, and all the organizers.

- Vennela Godari

It's a great initiative — we get guidance from working professionals with years of experience. My mentor is guiding me through a project: we brainstormed, chose a feasible AI + web development idea, and he gave me a structured approach, guiding me at every step. These discussions are helping me explore new concepts and learn new things. I am very grateful for this opportunity.

- Navya

My one-on-one session with Pradeep Sir was extremely helpful and insightful. He carefully reviewed my resume, pointed out mistakes, and gave valuable suggestions I have already started implementing. The session also taught me how to answer interview questions with confidence and structure. As an ECE student preparing for placements, the guidance was highly relevant and practical — it truly boosted my confidence and motivation.

- Chiviti Pavani

The mentoring sessions are very helpful — I was given inputs I had never known before, which helped me enhance my skills. I hope these sessions continue in the future too. Thank you for this opportunity.

- Karumuri Mohan Sri Laxmi Sindura

IGNITING MINDS
FOR LIFE

Siblings Using NorthSouth As Inspiration For Societal Good

A Story About The Vidhya Rights Foundation

PLATINUM SPONSOR | RALEIGH NORTHSOUTH FINALS 2026

Everyone here knows the basics about the NorthSouth Foundation: it's a volunteer-run organization that turns the funds generated from competitions into scholarships in India for underprivileged students to finish their education. And we also know that for the US competitors, they are set up well to go on to win US national championships. These are both noble causes that deserve to be celebrated, but if you ask us, the real impact of being in the NorthSouth community goes beyond trophies and even the money raised for scholarships alone – the existence of the Vidhya Rights Foundation (VRF) is proof.

Meghana first got involved with NorthSouth as an 8th-grade student, participating in the Brain Bee. That first year, she wasn't prepared for what the competition would really be like: she prepared casually, got familiar with the subject, thought she knew what she was doing, and promptly got eliminated early on. But, still she had fun! She reconnected with old friends during breaks, and had the opportunity to learn more about what NorthSouth does.

The experience taught her a lot about humility and perseverance. Meghana came back at the next years' NorthSouth Finals and won the Brain Bee. What stuck with her more than the win, though, was the fact that NorthSouth was such a large organization entirely run by volunteers, and that as an organization it was able to have such meaningful impact for so many students and their families in changing their ability to pursue education. It demonstrated that academic pursuits need not be separate from philanthropic ones, and in fact, one could use academic pursuits to fuel philanthropy.

The NorthSouth mission inspired Meghana to want to do more, so, she started tutoring to donate earnings. Given confidence from her experience with NorthSouth that volunteer-run organizations could reach successful heights, Meghana created an organization where volunteer tutors run pay-what-you-can tutoring sessions, and use all proceeds to fund scholarships/support education for underprivileged children, both in the US and India. She believed that everyone has a right to a good education, regardless of ability to pay, and therefore named this fledgling organization the **Vidhya Rights Foundation** (in Sanskrit, *Vidhya* translates to *knowledge*).

NorthSouth
Foundation

71

www.vidhyarights.org

Soon after, her younger brother Sashank, who had been “a NorthSouth kid” since kindergarten, joined her – initially he helped plan, ran social media efforts, and recruited volunteer tutors, but he soon became a core tutor himself. Sashank and Meghana were also joined by their mother, who quickly became a core tutor as well.

Together, they were seeing the value that this service was providing, especially in light of the COVID-19 pandemic that had just broken out at the time, derailing the traditional instructional system. A mix of families approached them daily to start tutoring: kids who needed 1:1 attention and learning support but couldn't afford the number of hours for a traditional tutor, families who were looking for a worthy cause to support, and others who just wanted high-quality tutoring wherever that might be. That interest, combined with the initiative from student volunteer tutors who wanted to get more instructional experience of their own, helped prove that this young organization had a model that was working.

Over time, VRF was able to support multiple initiatives in India and the US: sponsoring hygiene and educational products for an all-girls’ orphanage in Hyderabad, covering the tuition and living expenses for a graduate of that orphanage who came to the US for her Masters’, and more. Over the last several years VRF has raised over \$80,000, all while keeping in with this same model.

Reflecting on this journey so far, it is clear that this is what being a part of NorthSouth really provides. Not only does the foundation encourage academic excellence, but it shapes students to be cognizant of the need in their communities, and to have the skills – academic, work ethic, social, and philanthropic – to become future leaders and look for their own ways to contribute.

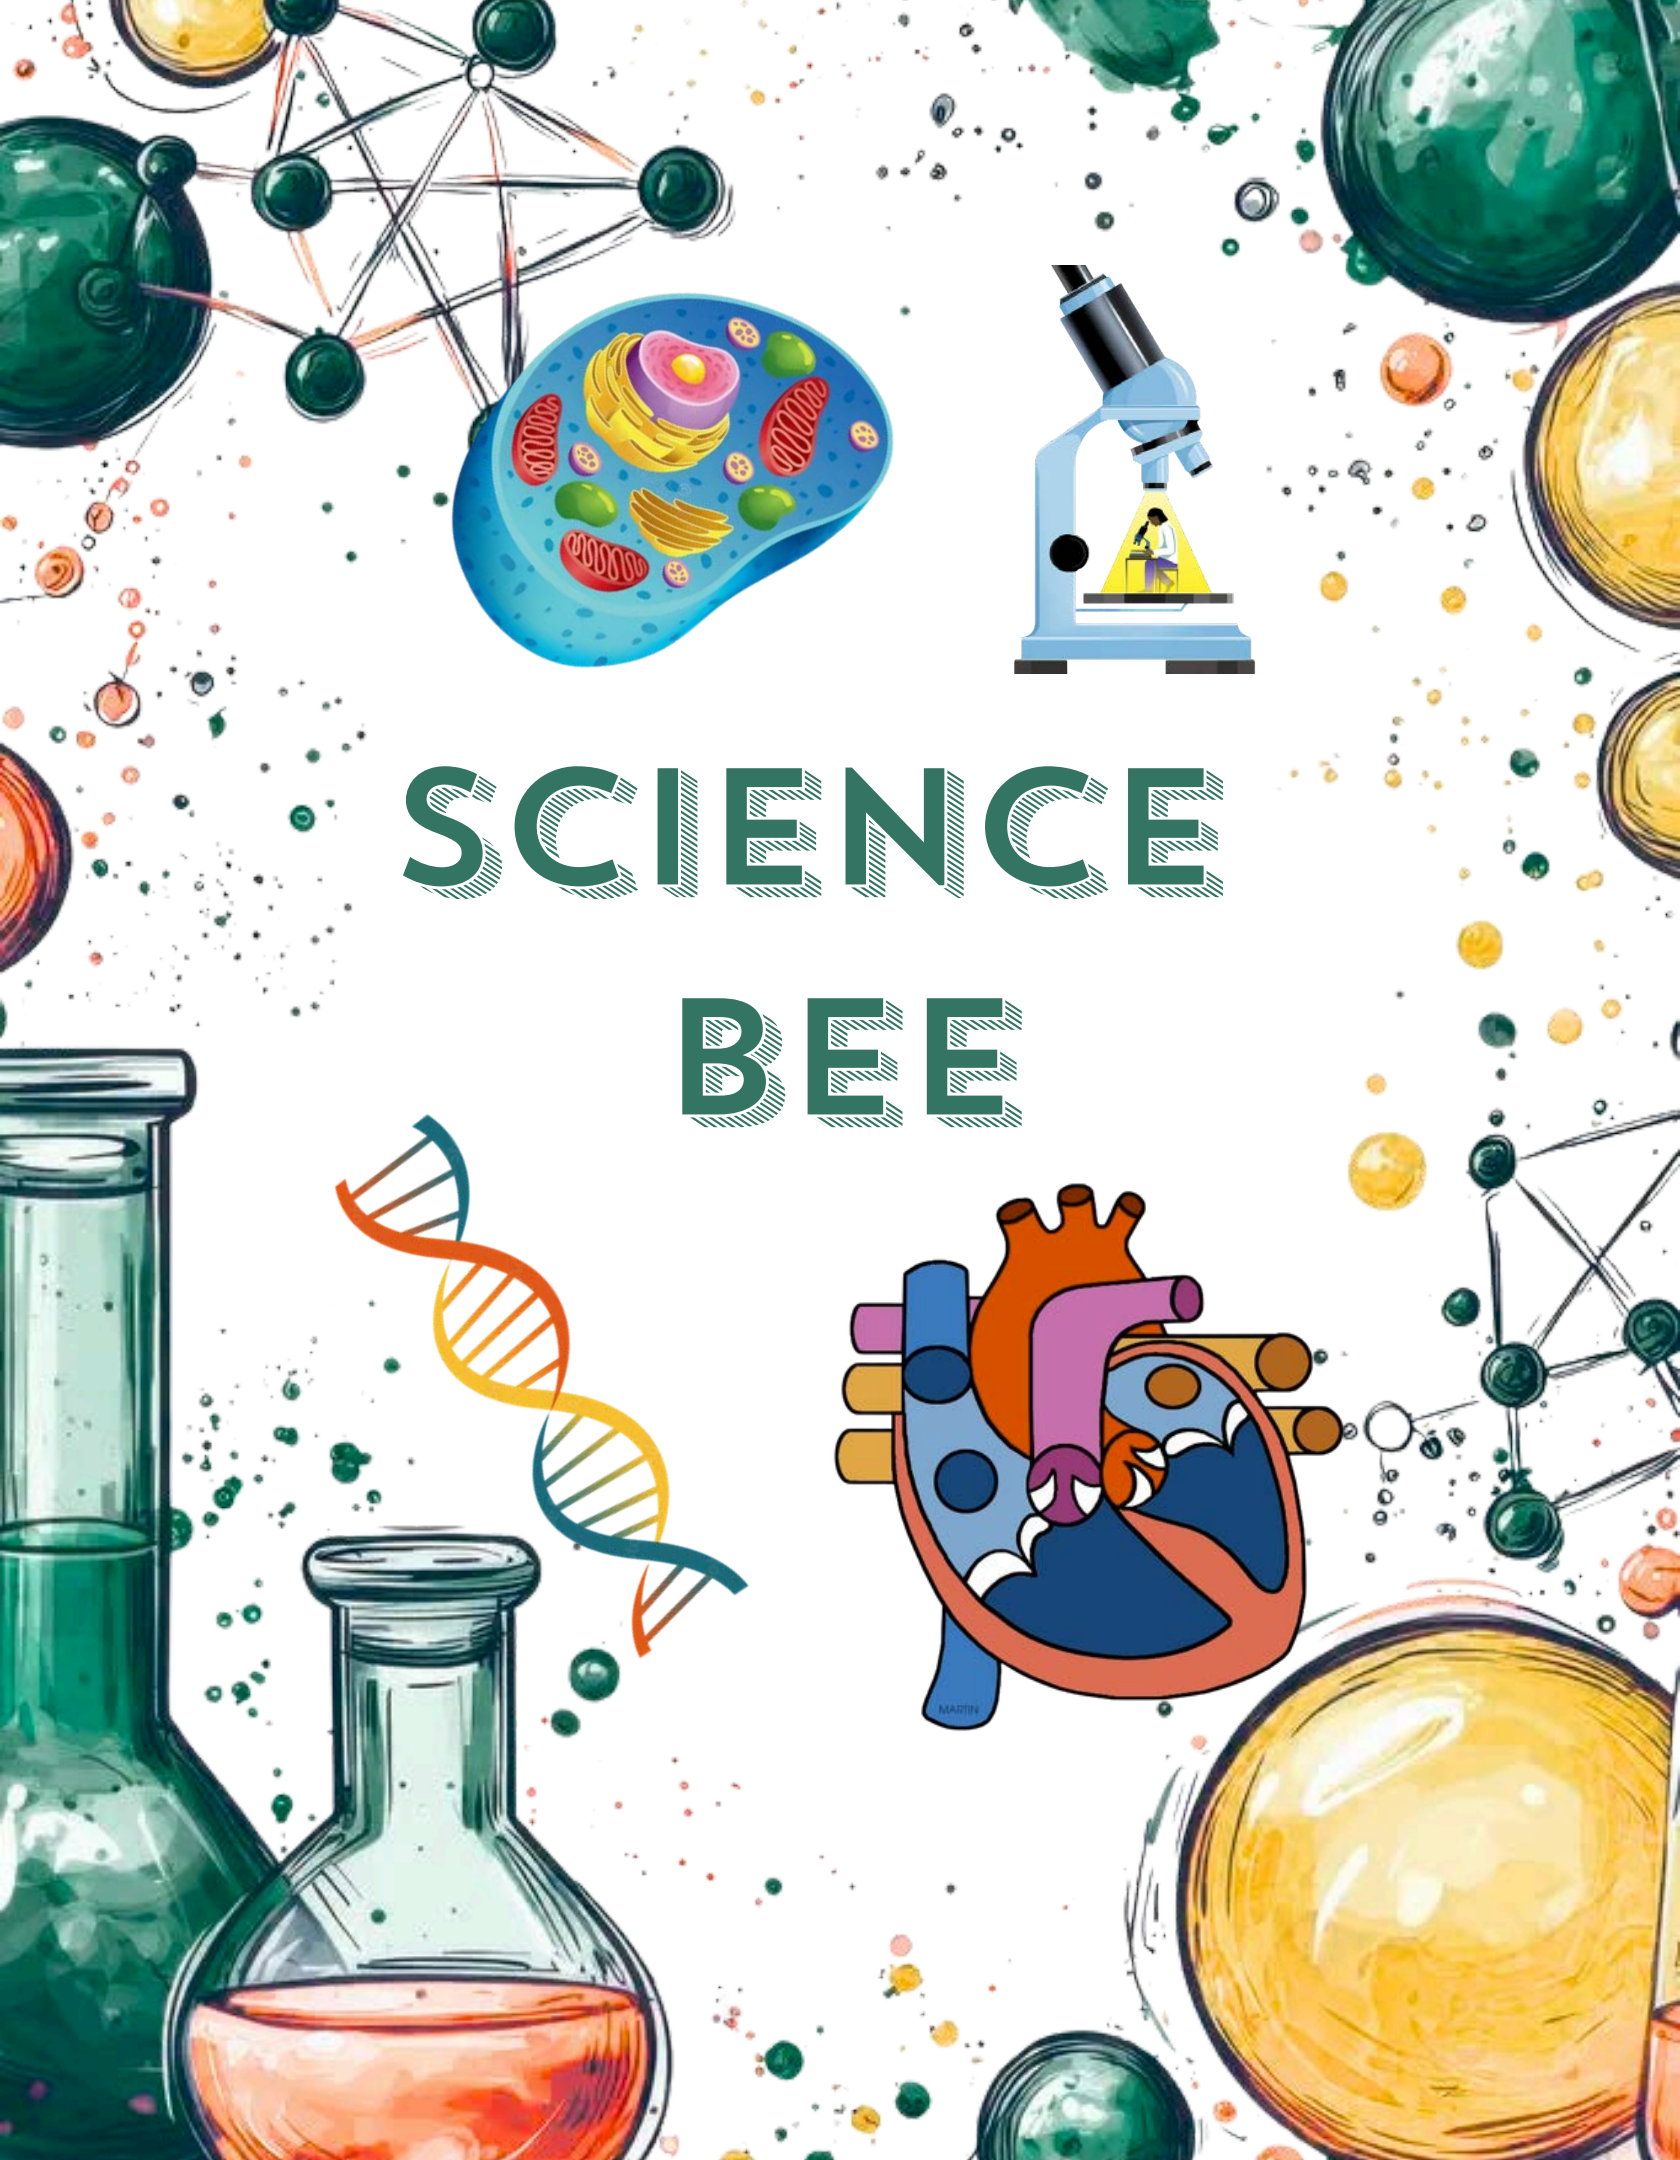

Today, VRF is proud to be a platinum sponsor for the Raleigh NorthSouth National Finals – the same event that lit the fire for VRF’s very existence so many years ago – in the hope that another student and another family might just be inspired to take action to address a need they see in their own community.

Dr. Meghana Ganapathiraju, MD

Sashank Ganapathiraju
Co-President, Vidhya Rights Foundation
NorthSouth Foundation Raleigh Chapter Director
2026 National Finals Convener

The background of the poster is a vibrant collage of scientific illustrations. At the top left, a molecular structure with green spheres and black lines is shown. Below it, a detailed diagram of a cell with various organelles like mitochondria and a nucleus. To the right, a blue microscope is depicted. In the bottom left, there are two glass flasks; one contains a green liquid and the other an orange liquid. A colorful DNA double helix is positioned in the lower middle. To its right is a stylized heart with blue and orange chambers. The bottom right corner features a large, glowing yellow sphere. The entire scene is scattered with small, colorful dots and splatters, creating a dynamic and educational atmosphere.

The Impact of Our Scholarships

NorthSouth's support helped me manage my educational expenses and eased the burden on my family. Instead of worrying about fees, I could focus on my studies, field training, and preparing for the OPSC exam. I cleared the OPSC AAO examination on my very first attempt — becoming the first government employee in my family. I am deeply thankful to NorthSouth and its donors for believing in students from modest backgrounds.

- AKANKSHYA DAS

With NorthSouth's support, I was able to buy a laptop — and it became the turning point of my journey. It helped me build my technical skills, prepare for placements, and gain real confidence. After my internship, I secured a full-time role as a Design Verification Engineer at QubitSemi Solutions. I am sincerely grateful to NorthSouth, its donors, and volunteers for supporting students like me.

Everyone Starts Somewhere

Kalaivardhini Muthuraman – Apex, NC

I want to tell you that from the moment I learned to talk, I spoke with an eloquent voice, confident in everything I had to say. I want to tell you that the first time I stepped on a stage, my voice was as sweet as honey and the whole crowd applauded the moment they heard me speak. That would all be a lie.

The first time I competed in NorthSouth was in the Junior Spelling Bee. I missed nearly every word. I walked out of that classroom with tears in my eyes, and the only thing I had to look forward to was the Costco cookie my dad had brought for me as a snack. I had spent five weeks preparing for that competition, only to leave feeling defeated. So I gave up. I was done with spelling bees. Done with competitions. For years, I stayed away.

Then I grew up, as all teenagers do, and I learned something about myself. I liked talking. Not always the public part of it, but the communication itself. I loved teaching, explaining ideas, and connecting with people. Eventually, I realized that giving a speech is not all that different. At its core, it is simply sharing something you care about with others.

I had almost forgotten about NorthSouth until I met Anish Palwai, one of my close friends, who asked me a simple question:

"Hey, I know you like speeches. Do you want to compete?"

With that one question, I found my way back into the world of NorthSouth, this time as both a speech competitor and a volunteer. It became one of the most meaningful experiences of my life.

Yes, I gained confidence. Yes, I placed first regionally in Raleigh. But when I think about NorthSouth, those are not the things I remember first. I remember the people.

I remember the volunteers who gave up their time to make competitions possible. I remember the competitors who practiced for weeks, hoping their hard work would pay off. I remember the friendships formed in hallways and classrooms between rounds.

Everyone Starts Somewhere

Kalaivardhini Muthuraman – Apex, NC

Most of all, I remember what it felt like to stand on the other side. Instead of being the nervous child competing, I was helping run events for students who were now in that same position. I saw the excitement, the determination, and sometimes the disappointment. I saw students trying something difficult simply because they believed it was worth trying.

There is so much more to NorthSouth than trophies or rankings.

NorthSouth creates a space where students can find their voice. It teaches resilience, confidence, and perseverance. It reminds us that growth rarely happens when things are easy.

One moment in particular stayed with me. After a spelling bee competition, I saw a young girl standing with her dad. Instantly, I thought of myself years earlier. I thought about the tears, the missed words, and the Costco cookie waiting afterward.

I thought about how many students struggle before they become confident speakers.

How many students doubt themselves before stepping onto a stage. How many students believe they are not good enough before discovering what they are capable of.

And I realized something. Everyone starts somewhere. No one begins as the perfect speaker. No one walks onto a stage without fear. No one succeeds without first experiencing failure.

I want to tell every competitor that you're going to win. And maybe you will.

But even if you do not win a trophy, you can still gain something far more valuable. You can gain confidence. You can gain experience. You can discover a voice you never knew you had.

I know that because I was once the child crying after a spelling bee, convinced I would never come back.

Now, years later, I cannot imagine my life without public speaking.

Join our Alumni Community

How Being an Alum of NorthSouth Led Me To The UN Stage

Most of you reading this are still in school, wondering what you'll do about NorthSouth after you graduate. As the Alumni Relations Director, I wanted to share how the NorthSouth community can benefit you even after you graduate high school.

I first joined NorthSouth in 3rd grade in the math bee in San Jose, CA, qualifying to the nationals throughout middle school. Yet my journey did not stop there. My chapter director was actually a teacher at my school, and as I continued to volunteer there in high school, she offered me her position. Now, as the youngest chapter director, I realized that as a youth volunteer and a NorthSouth alum myself, I have a unique advantage in that while running the contests, I can use my own NorthSouth journey to inspire the students to continue pursuing their interests.

Yet at the same time, I was developing an interest in history, which started as I created a passion project (Instagram: @harshil.the.historian) to help my peers with their AP history courses. I did not know how people would react to this unique passion until I found a welcoming community in NorthSouth of young minds who really enjoyed history contests. I started the history coaching program and sat on many Geo MTPs as the "History Pro" as many aspiring historians and their parents wondered how to develop their passions further. I even got to speak at the UN Headquarters to 2500 students earlier this year about how NorthSouth gave me a community to embrace my passion for history, inspiring the students to pursue their true passions.

As I left home to go to Brown for college, the NorthSouth community always made me feel like home as I would go to the Boston chapter to inspire more students. In fact, while interning in DC, I got the opportunity to support 2024 Scripps champ Bruhat Soma as he judged the Press v Politicians spelling bee! As we expand the alumni community, we have sent alums to local chapters wherever they've moved to inspire students with their own NorthSouth journeys, and they have used their expertise to mentor many of our current students. We hope you all stay in touch and continue to inspire the next generation of students. **Please scan the QR code above to join our community if you have graduated high school, and keep in mind, no matter where you go or whatever passion you develop next, the NorthSouth community will always embrace you.**

Volunteers, we need YOU!

NorthSouth is built on the dedication of volunteers who believe in empowering the next generation. Whether you're a student, parent, alumnus, or community member, your time can make a meaningful difference. E contribution helps create opportunities for students to learn, grow, and succeed. By volunteering, you are not only giving back to the community but also helping inspire future leaders and ensuring that NorthSouth continues to make a lasting impact for years to come. Read further to explore the opportunities!

Coaching

Teaching with NorthSouth is an opportunity to inspire students, share your knowledge, and make a lasting impact on young minds. Whether you're never taught before, whether you're an adult, a college student, or even a high school student passionate about a subject, you can help foster curiosity, confidence, and a love of learning in the next generation. You become part of a community dedicated to academic excellence while developing your own leadership, communication, and mentoring skills. The lessons you teach today can spark a lifetime of learning for a student tomorrow.

Contests

Regional contests are only possible because of dedicated volunteers who help create a welcoming, organized, and memorable experience for every student. Whether you're assisting with registration, event operations, judging, or logistics, your time plays an essential role in helping hundreds of students perform at their best. Join us for a shift at your local Regional Contest and make a meaningful impact while supporting a community that celebrates learning, leadership, and academic excellence.
